RP-DX Chiller Tube Cleaner Powerful Cleaning Performance, Lightweight And Compact Design

The RP-DX is engineered specifically for HVAC professionals seeking an affordable and reliable tube cleaning solution. Its lightweight design makes it easy to carry, while still delivering powerful tube cleaning performance. Ideal for commercial tube cleaning, it efficiently cleans straight tubes up to 1" ID in condensers, evaporators, and other heat exchangers. It offers advanced features like an integrated water flush and a bi-directional foot-switch for better control over shaft rotation. The patented Quick Connect system allows for fast and easy brush and shaft changes, making the RP-DX a practical tool for any HVAC professional looking to get the job done quickly and effectively.

FEATURES

- Ultra compact lightweight design
- Improved portability
- Interchangeable cleaning tools
- Quick connect threadless shaft manifold
- Simultaneous water flush
- Foot switch activation
- Reversible shaft rotation
